

BCI BALAJI METAL
CRAFT INDUSTRIES

BCI

Manufacturer of Precision Turned Metal Components

An ISO 9001 : 2015 Certified Company

About Us

OUR MISSION

To continuously strengthen and upgrade our manufacturing processes, quality systems and people competencies by training & education and providing a safe work place.

01

Our Vision

To be a company that best understands and satisfies the need of customers, to be a valuable company for all our employees and to be a reliable support to our business associates.

02

Our Commitment

To understand and exceed the expectations of our valued customers, while delivering high quality products with competitive price to their most demanding requirements.

03

Leading Manufacturer of Best Quality Precision Turned Metal Components

The base of our strength lies in the integrity, transparency, excellence and quality we provide to our customers. Client satisfaction is always our priority which we are able to fulfill with great commitment by understanding their objectives. With sheer dedication, a great team work and the continuous efforts of our R&D team, we have been able to attain the success in the industry.

The unmatched quality, reliability of our products and services offered by us meet the satisfaction of our esteemed customers. We not only believe in producing the products as per our company product range but we also produce products as per customer customization with competitive prices, better quality and on committed delivery time.

Metals We Use

We are capable of machining a wide range of materials which is best suited as per customers' application and requirement. Few commonly used metals are mentioned below.

Heavy Metals

- ⇒ Copper Zinc Alloys (Brass)
- ⇒ Copper & Copper Alloys
- ⇒ Copper Beryllium

Steel

- ⇒ Alloy Steel
- ⇒ Carbon Steel
- ⇒ Stainless Steel

Light Metals

- ⇒ Aluminium
- ⇒ Aluminium Alloys

Quality

Quality being of prime importance, all our activities revolve around managing and maintaining efficient quality management system. To meet the global demand we take care at every stage right from raw material purchase to finished goods. Our quality assurance team is trained and well experienced. To achieve the maximum standard our quality control team continuously monitors the products and user requirement right from the production stage up to the final dispatch. Every employee of the company is committed to the pursuit of excellence with continuous improvement of the Quality Management System.

Our target is to provide zero defects products to client which is remarkable in industry. To meet the global demand we take care at every stage right from raw material purchase to finished goods. We ensure that we are able to deliver high quality products to our customers according to their need. All our valued customers have awarded us consistently ensuring the high quality of our products. Quality Planning, Test Equipments, In-Process & Inter-Process Inspections, Equipment Calibration & Maintenance, etc are some of the major part of our quality control program.

Quality Manufacturing Is Our Aim

Quality Control

Our quality control department ensures that each product is manufactured with controlled process according to given task and quality of parts are maintained throughout entire process. For ensuring products are free from all kind of faults, we test our products with rigorous controls along with supplementary test like process control, assembly line control, quality control, material control, dimensional control, leakage and pressure control. We offer superior & safe products performance. Being the integrity of their mechanical design & the quality of materials used in their production.

Happy Customers 100%

Reserch & Development 85%

One Time Delivery 95%

Quality Policy

Our primary goal is to provide highest quality product with good customer centric service. We will achieve this goal by continuous monitoring and improving our performance which are based on client needs and tough objectives.

Instruments

As the Instruments are the heartbeats of industry, to assure good quality of procuts, Quality Instruments are required. Company has invested a good amount behind this to have majority type of Inspection instruments including all instruments and gauges along with the profile projector and other sensitive instruments.

Inspection

Company has unique Inspection facility to achieve the goal to zero defects and rejection of any products manufactured. Well experienced and regularly trained technocrat engineers, carry out the Inspection on each Individual product. Batch Inspection is not permitted in the company.

Infrastructure Is The Key To Growth. Modern & Innovating Infrastructure For A Better Tomorrow.

Balaji Metal Craft is equipped with a well established manufacturing unit which is regarded as the main strength of our company. Working hard for a period of over two decades, we have successfully built up a strong base upon which our company is enjoying stability and rapid growth catering to the needs of our clients with the best products and services in the industry.

Our manufacturing unit is equipped with latest machines and technology to produce zero-defect and high performance metal components. The sophisticated production facilities enable us to execute orders of various sizes and specifications. The infrastructural facilities are also equipped with sophisticated packaging equipment and machinery to ensure quality packaging that ensures safety of products during transit and delivery. Our manufacturing unit is equipped with latest machines and technology to produce zero-defect and high performance metal components.

List of Machineries

1	Manually Machine	3mm to 50mm
2	Automatic Machine	3mm to 50mm
3	CNC Turning	3mm to 200mm
4	CNC Milling - VMC	300 X 400mm
5	CNC Wirecut	300 X 400mm
6	EDM Drill Machine	
7	Multi Station Rotary Disc Transfer Indexing Machines	3mm to 24mm
8	Drilling Machine	
9	Power Press	10 Ton, 20 Ton, 30 Ton, 50 Ton
10	Hand Operaed Power Machine	
11	Surface Griding Machine	
12	Milling Machine	
13	Short Blasting Machine	
14	Vibro Finish Machine	
15	Benzo Cutting	10mm to 200

Brass Agriculture Products

We are privileged to offer wide range of Brass Agriculture Parts. The material used in manufacturing of Brass Agriculture Parts ensures high durability and tensile strength. These Brass Agriculture Parts are used in agricultural field, and are free from rust. Available in unique dimensions we develop the Brass Agricultural Parts as per customers' drawings and samples. Excellent management team, production team & marketing team expertise with intensive market analysis enables us in manufacturing a range, which stands high on accuracy and is offered at competitive rates.

Automobile Components

We are specialized in manufacturing and customizing any kind of automobile parts as per customer requirements and CAD drawings. We are using excellent quality raw materials and advanced technology to ensure the high durability and anti-corrosive property of automobile parts. All our automobile parts are compliance with the international standards and industry norms. Our offered range of automobile parts are widely appreciated by customer in domestic as well as international market for its accurate dimension, precious design, high performance and flawless finish. Automobile Parts are widely used in all kind of vehicles and automobiles as replacement and repairing parts.

Fuse Parts

We are manufacturing all kinds of Brass Electrical Components, Brass Electrical Parts and Brass Electrical Fittings like Electrical Plug Pins, Sockets Pins, Brass Neutral Links, Brass Terminal Block, Brass Connectors, Brass Contacts and more. Brass Electrical Components are consumed in various applications like Toggle Switches, Modular Switches, Switchgears, Fuse Switches, Plug Pins & Sockets and many Electrical & Electronics Equipment or Parts. Brass Electrical Components for various industries including Power Generation, Electronic Industry, Solar Energy, Automotive Industry, Medical Industry, Electrical and Engineering Assembly.

CNC Turned Parts

We are engaged in offering a wide range of Brass CNC Turned Parts to our clients at a reasonable cost. Our cnc turned parts are made using quality raw material such as high and fine grade brass to assure quality and reliability. We manufacture all types of Brass cnc turned parts depending upon client's requirement for application in any industry. The range of Brass CNC Turned Parts find wide application in machine building, automobile, hydraulics and general engineering industry. These turned components are tested on numerous parameters to assure it on counts of quality.

Water Meter Components

We are leading manufacturer and exporter of premium quality Brass Water Meter Components made from high grade raw material and modern technology. All our Brass Water Meter Components are dimensionally accurate, precision engineered, high in efficiency wear and tear resistant body and longer service life. Water Meter Components are easy to install and lighter in weight. We are capable to provide any size and type of brass water meter components as per customer specification. They are ideal to measure low, medium and high-water flow used in various industry. We are capable to manufacture any type of brass components for single and three phase energy meter parts. We provide any type and shape of water meter parts including Round, Hex, Flat, Long and any custom build as per drawing sample.

Contact Pins

We are leading manufacture & exporter of supreme quality Brass plug pins & sockets. We produce a big variety of brass pin like Brass Socket Pins, Brass Plug Pins, Brass Charger Pins, Brass Auto Electrical Pins, Brass Contact Pins and Brass Neutral Switch Pins which are made from copper zinc alloy as per customer requirements. These Pins are used in many industries like Automotive, Electrical & Electronics, Communication & Telecom.

Oil & Gas Parts

We provide Brass Oil & Gas Parts which are made from premium quality raw materials and with advanced technology. The range of Brass Oil & Gas Parts have been designed by experts with the application of domain knowledge and standard industrial specifications. The Brass Gas Parts are available for various fittings need in different sizes, shapes, designs and thickness. Brass Oil & Gas Parts are available with international quality standards and features for widely used in variety of applications.

Plastic Moulding Parts

We have have been continuously developing and machining new high-performance plastic materials for cutting-edge applications. Our Expert team always put the needs of our customers first. Our products will last for long term, stable and reliable finished components. We are committed to meet all of the requirements and qualifications of our high-technology customers. We produce molded rubber in both standard and spec compounds that meet Mil-SPEC, AMS, ASTM, BMS, A-A-59588, and more. Our mold department can manufacture parts as tiny as a gram and parts weighing hundreds of pounds. Molding rubber to metal or fabric is no problem, we can custom engrave parts and add metal inserts.

Brass Valves

We have been continuously developing and machining new high-performance plastic materials for cutting-edge applications. Our Expert team always put the needs of our customers first. Our products will last for long term, stable and reliable finished components. We are committed to meet all of the requirements and qualifications of our high-technology customers. We produce molded rubber in both standard and spec compounds that meet Mil-SPEC, AMS, ASTM, BMS, A-A-59588, and more. Our mold department can manufacture parts as tiny as a gram and parts weighing hundreds of pounds. Molding rubber to metal or fabric is no problem, we can custom engrave parts and add metal inserts.

Washers

We are privileged to offer wide range of Brass Agriculture Parts. The material used in manufacturing of Brass Agriculture Parts ensures high durability and tensile strength. These Brass Agriculture Parts are used in agricultural field, and are free from rust. Available in unique dimensions we develop the Brass Agricultural Parts as per customers' drawings and samples. Excellent management team, production team & marketing team expertise with intensive market analysis enables us in manufacturing a range, which stands high on accuracy and is offered at competitive rates.

Hex Nuts

We are privileged to offer wide range of Brass Agriculture Parts. The material used in manufacturing of Brass Agriculture Parts ensures high durability and tensile strength. These Brass Agriculture Parts are used in agricultural field, and are free from rust. Available in unique dimensions we develop the Brass Agricultural Parts as per customers' drawings and samples. Excellent management team, production team & marketing team expertise with intensive market analysis enables us in manufacturing a range, which stands high on accuracy and is offered at competitive rates.

Forged Components

We are privileged to offer wide range of Brass Agriculture Parts. The material used in manufacturing of Brass Agriculture Parts ensures high durability and tensile strength. These Brass Agriculture Parts are used in agricultural field, and are free from rust. Available in unique dimensions we develop the Brass Agricultural Parts as per customers' drawings and samples. Excellent management team, production team & marketing team expertise with intensive market analysis enables us in manufacturing a range, which stands high on accuracy and is offered at competitive rates.

Hydraulic Parts

We are privileged to offer wide range of Brass Agriculture Parts. The material used in manufacturing of Brass Agriculture Parts ensures high durability and tensile strength. These Brass Agriculture Parts are used in agricultural field, and are free from rust. Available in unique dimensions we develop the Brass Agricultural Parts as per customers' drawings and samples. Excellent management team, production team & marketing team expertise with intensive market analysis enables us in manufacturing a range, which stands high on accuracy and is offered at competitive rates.

Hose Pipe Fittings

We are privileged to offer wide range of Brass Agriculture Parts. The material used in manufacturing of Brass Agriculture Parts ensures high durability and tensile strength. These Brass Agriculture Parts are used in agricultural field, and are free from rust. Available in unique dimensions we develop the Brass Agricultural Parts as per customers' drawings and samples. Excellent management team, production team & marketing team expertise with intensive market analysis enables us in manufacturing a range, which stands high on accuracy and is offered at competitive rates.

Sheet Metal Parts

Sheet Metal / Stamping Parts are used in varieties of applications like riveting, Fitting, Supports, Locking, Fastening & for various uses in electromechanical & Automobile Industries. It comprises a lot of types like Washers, Lugs, Tags, Gaskets, Links, Banana Plugs, Terminals, Tapping Clips, Hinges etc. Apart from Plain Washers, all other varieties are exclusively developed as per custom designs & demands. Sheet Metal Parts are generally made from Brass, Copper & Steel which are the universally used in most of the applications. Flat Washer, Star Washer, Teeth Washer, Spring Washer & Split Washers can be made available as per specific requirement.

SS Components

We Manufacture Stainless Steel Components, Stainless Steel Machine Components, Customized Stainless Steel Components, etc. Our products are known in the market for their superior varieties and durability. These are widely appreciated for their sustainability, reliability, and precise designs. We ensure the most reliable products which are available in the best specification at the most profitable price range. Our products use in many industries like Automotive, Material Handling, Textile Industry, Medical and Engineering Sectors.

MS Components

We are specialized in manufacturing of Mild Steel Components. We have strong command in the machining of this material as well as its variant grade like the EN series. While machining we keep our specified tolerance to achieve the final size easily. We work for high precision and accuracy. We are supplying these parts to Electromechanical Industries, Fasteners, Automobile Industries, Electronic and Electrical Fittings. Any kind of Mild Steel Components can be developed and supplied exactly as per customer specifications.

Aluminium Components

Aluminium Components are used in the automobile, electrical, electronics, mechanical, telecom and plastic industries. Owing to their high corrosion resistance and optimum finish, Aluminium Components are widely demanded in the market. As all our products are developed using technologies best suited to the latest industrial applications and consumer demands, they are known for exhibiting rich attributes. Aluminium Components are known for Rugged construction, Assuring Proper Fitting, Durability, Outstanding Performance and Low Maintenance. These Aluminium Components are available in different sizes and configurations in the market as per customer requirements and specifications.
